

# Confusing words – sentence gamble!

## Contributor's Notes

Here's a little something I've used to practise homophones and other confusing words, e.g. where and wear and through, threw and thorough.

The instructions are on the top of the next sheet. The only caveat is to make sure that the students don't mind the idea of gambling, though they are only gambling points.

Generally speaking, I've given this as work to do in pairs, eliciting the errors and the differences in meaning between the homophones as a class afterwards.
