Name _____ Date _____

How many facts and figures do you know about Harry Potter?

How many Harry Potter books have you read?

This page from '*The Guardian's – Guide*' has many numerical facts about Harry Potter, JK Rowling, and other famous books and films.

There are 8 sections marked up on the page 1 and the questions below relate to these sections. **Use a separate sheet to show your workings.**

Section 1

The cost of the 'Wizarding World of Harry Potter' at the Universal Theme Park in Florida was \$200m.

1a. Write out this amount in figures in full. _____

The usual attendance at the theme park was 1,000,000 every 3 months,

1b. What is a spike in attendance - is this **more** or **less** than usual? _____

1c. What is 3 months as a fraction of a year?

1d. Write this down as a different (but equivalent) fraction. _____

Section 2

2a. Estimate how many tweets you have ever sent. _____

2b. How many more or less than you has JK Rowling sent? _____

Section 3

Harry Potter could be translated into 200 different languages in the world.

3a. Subtract 69 from 200 to calculate how many more of these languages are there to translate Potter books into? _____

3b. Round your answer to the nearest 10. _____

3c. Using your answer in 3b what percentage of these 200 languages are Potter books available in currently? _____

Answers

- 1a. \$200,000,000
- 1b. More
- 1c. $\frac{3}{12}$ or $\frac{1}{4}$
- 1d. $\frac{3}{12}$ or $\frac{1}{4}$
- 3a. 131
- 3b. 130
- 3c. 65%
- 4b. 31 July 1980
- 5a. 8
- 5b. Pounds
- 5c. Imperial
- 5d. Weight
- 6a. Pie
- 6b. Percentages written in the correct segments.
- 7a. Nineteen million
- 7b. Million
- 7c. £25,000,000 or £25 million
- 7d. More
- 8a. \$
- 8b. \$18.85
- 8c. \$20 billion
- 8d. 32
- 8e. 30
- 8f. \$0.7 billion
- 8g. \$4,400,000,000

Extension

- 1,360,000
- \$32,000,000
