

Dolch words board game

September 2009. To print or download your own copies of this document visit <http://www.skillsworkshop.org/>

You need

- 6 counters for each player
- 1 dice

How to play

The object is to get your counters across the board into the opposite player's home

- Players to throw dice in turn and move across the board for the number of jumps shown on the dice.
- If you land on a square – read the word. Words can be read from your own direction – NOT upside down.
- If someone else is already in the square – SEND THEM HOME!
- The first player with all their counters across the board and safely in the opposite person's home is the winner.
