At what age can you get a job? In every country we can only do some things, like getting married or driving a car, when we get to a certain age. If you are under this age it is not legal (it is against the law). So, how old do you have to be in the UK?

### At what age can you leave school?

In Scotland, Wales and Northern Ireland young people can leave school if they are 16 or over.

The school leaving age in England changed in 2013. Now, every child has to stay in education or training until they are 18.

This does not mean all children will have to stay in the classroom. If young people don't want to stay in full time education at a school or college, they can do an **apprenticeship**, or they can get a full time job (over 20 hours a week) but they must also **attend** part time education or training at the same time.
