Entry 2 Numeracy Practice – B
A trip to London

Curriculum References
Covers most areas of the E2 curriculum (number, measure and data).

Gaye Noel, the contributor, explains ...

I have put together 'practice assignments' for Entry 1 - 3 in order to prepare learners for the City & Guilds numeracy assignments.

Although they do not contain as many different areas of the curriculum as the actual live assignments, I have found them very useful. Hope someone else might as well!
