## Teaching notes:

This revision task aims to prepare students for the Entry 3 ESOL writing test.

It portrays a sample student answer to Task 1, Cambridge ESOL E3 Test 067 with accompanying teacher feedback. Note that it is not a “model” answer because it far exceeds the required word count of 60.

It also demonstrates some effective methods of feedback that you can use to help learners improve their writing – without actually making the corrections for them.

A knowledge of perfect tenses (well one anyway) is expected but these should have been introduced by/at E3. Practice in distinguishing some “false friends and confusables” is also included (the underlined words.)

Task 1 is summarised below. The complete Cambridge paper is available online at:

*Read this answer to the exam question. Then read the teacher's notes. Then rewrite the answer on lined paper.*

Yesterday afternoon I was cleaning upstairs in my flat at No7 High Street, Abingdon. I was cleaning the bathroom first, then I started to cleaning the floors. The vacuum cleaner was quiet noisy, of course. I have asthma and the dust really effects me.

There is a nice scenery from my window. I do notice some activity in the street but that is ordinary. I like to keep an eye on my car. It was parked across the road from my flat.

I heard car doors slammed and looked out. Two guys were getting out of a Silver Audi just outer my flat. One was on his mobile and the other just stood by him, waiting.

I didn't saw anything else really. I was trying to finish the cleaning so I could bring the children from school.

However, only about 10 minutes later, I glance out of the window again, and saw that Frankie's Skoda was gone. His car is the same like mine. It was parked right next to my car. I thought that was peculiar because Frankie never brings his car to work.

That was about half past two. I can't remind anything else, sorry.

- 1. In several places I have underlined where you've used the wrong word or expression, and you need to replace them with one of these words:*

*affects fetch remember view takes as normal  
outside quite*

- 2. I've circled six verbs where you've used the wrong form or tense.*
