L1 revision questions

New Horizons Revision Questions

These questions were made by my New Horizons ESOL Numeracy class as an end of term revision. They had to make the questions themselves and work out the answers. Then they had to use IT skills to type them up. I checked their answers and re-formatted them.

It was an opportunity for them to demonstrate their learning and take part in some peer observation.

This resource could be used simply to revise Level 1 Numeracy, or as a springboard for getting a group of learners to make their own questions. It was a good chance for them to revise but also gave them a confidence boost when I printed the finished resource off to show them. They also really like the idea of other students learning from their questions.

If using for Functional Skills, a calculator is permitted but students must show all their working out.

Calculators are not permitted in the adult numeracy test.

Answers:

1. £690
2. 140m^2
3. Two hundred thirty five.
4. 26:21
5. £350
6. 6
7. £31.68
8. £20.40
9. £2
10. 48250
11. £46.80,
12. 70m
13. 20:57pm,
14. 301
15. 16
16. 22
17. £25.60
18. 20m^2
19. 2
20. £80

E3-L1 revision questions
