

# SUPER LEAGUE SYLLABLES

If you are able to split words into syllables it can help you to spell new words correctly.

It is sometimes easier to remember chunks of a word (or syllables) rather than the whole word.

Sound out the syllables in words you are learning to spell.

For example: Warrington Wolves

War / ring / ton Wolves

Notice that each syllable contains a vowel sound.

## A tip

Put your hand under your chin and say the word slowly. To find the number of syllables count how many times your jaw drops.

## NOW

Look at the attached sheet. The table has the names of the Super League teams in the boxes. Copy out each name but split it into syllables. The first one has been done for you.
