Estimating Weight and Capacity

1. Estimate the weight or capacity of the items in the chart below.

| Item | Estimated Weight/Capacity | Actual Weight/Capacity |
|-----------------------------------|---------------------------|------------------------|
| Cadbury's Chocolate Fingers | | |
| Standard box Kellogg's Frosties | | |
| Tube of Pringle's crisps | | |
| Tin of Heinz baked beans | | |
| Small tin of tuna chunks in brine | | |
| Hovis Best of Both sliced bread | | |
| Cheese and tomato pizza | | |
| Small carton milk | | |
| Muller Fruit Corner strawberry | | |
| Red wine | | |
| Large bottle of Coca Cola | | |
| Small bottle of washing up liquid | | |

2.

- Open Internet Explorer and go to www.mysupermarket.co.uk
- Add your postcode
- Choose where to shop
- Find the items by clicking on a department to see the shelves in that department.

- Find the real weight or capacity of the items and compare with your estimates.
