

Pence into Pounds

28p can also be written as £0.28

You can use either pence (p) or pounds (£)

Never use both together ~~£0.28p~~

Pence (p)	Pounds (£)
63p	£0.63

Teaching Notes

This worksheet can be differentiated depending on the stimuli.

- I made pence cards to go with this resource – the students had to move round the classroom to complete their worksheet.
- You could also use small piles of real money – this would also bring in Entry 2 ‘counting money’ skills.
- Or use price tickets or priced items cut from supermarket leaflets and ask students to do the reverse calculation (i.e. convert pounds to pence)
