Decorating your Bedroom

Your rich Uncle Arthur has been very generous and has given you £1000.

You decide to completely re-decorate your bedroom with the money. How much can you buy with £1000?

1. Think about what you will need for your bedroom and write a list of what you want to buy.
Beside each item, estimate how much you think it will cost.

Item	Estimated cost (£)	Actual Cost

Name _____ Date _____

2. Using the Argos catalogue, find the things you have written in your list and write down how much they cost. After each item you buy, write down how much money you have left to spend

Item	Page No.	Cost	Amount left from £1000

Name _____ Date _____

3. Go back to the table in question one and fill in the actual amount column. Did most of the items cost more or less than you estimated? Choose 4 items and work out the difference between what you estimated and how much they actually cost

Item	Estimated cost	Actual Cost	Difference

4. Did have enough money to buy everything on your list?
- If not, how much more money would you have needed?
 - If you did, do you have any money left? How much?
5. What were the two most expensive items?
6. What were the two cheapest items?
