Candidate $\mathcal{N}$ ame $\qquad$

## Task $3-$ Solving Problems $\operatorname{Ul}$ ing $\operatorname{Multiplic}$ ation and $\operatorname{Division}$

$\mathcal{A}$ Le arning Centre is folding a"listening to le arners" meeting.
Refresfments will be provided. The staff at the Learning Centre buy

> 106 sandwiches
> 22 scotch eggs
> 166 sausage rolls

Use the list above to answer the following questions.
Write your answer on the line. You MUST show your working out.

1. Scotcheggs are cut into 4 pieces.
i) How many pieces can be cut from 22 whole Scotcheggs?
ii) How many Scotch eggs are needed to make 56 pieces?
2. Two pieces of Scotchegg are put onto each plate.
i) Howmany pieces of Scotchegg are needed for 38 plates?
$\qquad$
ii) How many whole Scotch eggs are needed to give this many pieces?
$\qquad$
3. Each plate will have 3 sandwiches.
i) How many plates with 3 sandwiches can be prepared?
$\qquad$
ii) How many sandwiches will be left over?
$\qquad$
ii) How many sandwiches are needed for 38 plates?
$\qquad$
4. Four sausage rolls are put onto each plate.
i) How many plates are needed for 166 sausage rolls?
$\qquad$
ii) How many sausage rolls will be left over?
$\qquad$
iii) How many sausage rolls would be nee ded for 38 plates?

## Ans wers

```
1i \(22 \times 4=88\)
1ii \(\quad 56 \div 4=14\)
\(2 i \quad 38 \times 2=76\)
2ii \(76 \div 4=19\)
\(3 i \quad 106 \div 3=35\) (with remainder 1)
3ii 1 (the remainder from the previous question)
3 iii \(\quad 38 \times 3=114\)
\(4 i \quad 166 \div 4=41\) (with remainder 2)
4ii 2 (the remainder from the previous question)
4 iii \(38 \times 4=152\)
```
