

Positive and negative temperatures. Follow-me cards

Instructions: print on coloured paper, laminate and cut up. Tutor keeps 'start' and 'end' card for themselves and hands out remaining cards. Tutor reads out question on start card. Learner with the correct answer card replies and then asks the next question.

Start Card It is 12°C	12°C The temperature falls by 15 degrees	-3°C The temperature rises by 7 degrees
4°C The temperature falls by 13 degrees	-9°C The temperature rises by 8 degrees	-1°C The temperature falls by 11 degrees
-12°C The temperature rises by 12 degrees	0°C The temperature rises by 8 degrees	8°C The temperature falls by 16 degrees
-4°C The temperature rises by 9 degrees	5°C The temperature falls by 13 degrees	-8°C The temperature rises by 11 degrees
3°C The temperature falls by 8 degrees	-5°C The temperature rises by 6 degrees	1°C Last card
