

Different types of nouns

The cards can be given to individuals or groups. They then have to sort the nouns under the different headings.

Page 5 can be used to record the lists of sorted cards.

Alternatively, higher level students can be asked to come up with their own examples and/or put them in sentences.

Notes

- Abstract nouns can be omitted for Entry Level learners.
- Proper nouns are shown without initial capital letters to prevent learners sorting them by this criterion - but the correct use of capital letters should be stressed after the activity and students should write the words with correct capitalisation if they are using page 5 as a follow up activity.

Different types of nouns

Proper Nouns	manchester
tom	coronation street
